I feel this program has helped me better to understand how to present myself during a job interview. They made everything easy to understand.

**Julie K.**

It gave me the skills I need to improve and see how this program can take you to the next step in life. I would tell everyone to take this program because they take their time to teach the skills to be someone in life.

**Danny R.**

I feel it has given me more confidence in myself, filling out applications, talking and working more positively with co-workers. I would recommend to family and friends that are unemployed.

**Nathaniel F.**

This program has helped me a lot because before the program I wasn't too sure what career I was into the most. This program also helped me prepare for a career. I will talk to everyone about this program because it really does work and helps you find a job.
