

YOUR NEW MISSION

Providing for your family

YOUR MISSION BEGINS NOW! Veterans Career Camp! Train and graduate within as little as 7 weeks.

VETERANS CAREER CAMP

The goal of the Veterans Career Camp is to significantly reduce unemployment through a comprehensive training program leading to employment.

The Camp accomplishes this mission by providing veterans with necessary training and job skills to obtain and retain competitive employment in today's ever-changing market.

To meet our goal, the Veterans Career Camp partners with local businesses to provide apprenticeship and entry level positions to our graduates.

Together with educational institutions, we offer an International Career Readiness Certificate upon completion of our 28 Days to Employment System and degree seeking programs.

In these tough economic times, it takes more than a cookie-cutter resume, a few references, and a work history to land a job.

The VEA system will teach you how to get on the "A" list and become THE candidate for the new opportunity.

Our system is successful because we assist you with:

- Teaching you to find a career through the eyes of the employer
- Uncovering skills and abilities to obtain employment
- Penetrating the hidden job market

- Making you a valuable resource sought out by others
